Cell: +880 1676 080 995  Dhaka, Bangladesh

PROFESSIONAL PROFILE

Civil Engineer with **6+ years of professional experience** in **QA/QC inspection, site supervision, construction quality management, technical documentation, and project coordination** across airport, metro rail, infrastructure, commercial building, and physical security projects.

Successfully completed **700+ QA/QC inspections** and prepared **1,100+ QA/QC documents**, including **WIR, MIR, MAR, RIW, IPC, ITP, NCR, inspection reports, and project handover documentation**, ensuring compliance with international quality standards and project specifications.

Currently serving as **Project Engineer** at **Ingress Solutions Ltd.**, the **Authorized Sole Partner of Dormakaba in Bangladesh**, specializing in automatic sliding doors, access control systems, RFID technologies, electronic locking systems, testing, commissioning, troubleshooting, and client handover.

Experienced in working with consultants, contractors, architects, multinational joint venture teams, and clients while maintaining compliance with **ACI, ASTM, BS EN, BNBC 2020, NFPA, OSHA, ISO 45001:2018, and ISO 14001:2015**.

KEY EXPERTIS

Site Inspection & QA/QC

- Conduct on-site inspection of RCC, RMC, pavements, piles, structural, and finishing works.
- Inspect fire-rated doors, shutters, windows, and life-safety systems.
- Perform punch listing, snag clearance, quality verification, and re-inspections.
- Witness material testing including slump, compressive strength, and concrete temperature tests.
- Verify construction activities against approved drawings, specifications, and quality standards.

DOCUMENTATION & QA/QC RECORDS

- Prepare, submit, review, and track WIR, MIR, MAR, RIW, IPC, and QA/QC documentation.
- Review Method Statements and Inspection Test Plans (ITP).
- Maintain QA/QC records, inspection registers, QA logs, and material approvals.
- Prepare as-built documentation, project close-out files, and handover documentation.
- Manage NCRs, corrective actions, and document control.

CODES, STANDARDS	HSE & SITE SAFETY	SOFTWARE & TOOLS
• BNBC 2020, RSC • ACI, ASTM • BS / EN (Europe-focused standards) • NFPA & OSHA Standards • ISO 45001:2018 & ISO 14001:2015 • International Construction Best Practices	• Occupational Health & Safety (HSE) • Hazard Identification & Risk Assessment • Site Safety Inspections • Toolbox talks • Incident Prevention & Compliance • Environmental Management	• AutoCAD 2D (as-built & drawing coordination) • Microsoft Project (Basic) • MS Excel (QA/QC trackers, logs, progress reports) • MS Word & PowerPoint • Adobe Acrobat Pro DC

PROFESSIONAL EXPERIENCE

Project Engineer

Ingress Solutions Ltd – _____ November 2025 – Present
(Authorized Sole Partner of Dormakaba, Bangladesh)

Key Responsibilities & Achievements

- Lead the installation, testing, commissioning, and handover of **Dormakaba** automatic sliding doors, electronic locks, RFID, and access control systems for commercial and residential projects.
- Configure **RT Plus Locks, Ambiance Access Control Systems, RFID credentials, controllers, and user access permissions** according to project requirements.
- Perform QA/QC inspections, functional testing, troubleshooting, and system validation to ensure compliance with Dormakaba standards and project specifications.
- Prepare installation, commissioning, testing, inspection, and handover documentation.
- Coordinate with clients, consultants, architects, contractors, and suppliers to ensure timely project execution and successful delivery.
- Conduct client demonstrations, operator training, and post-installation technical support.

Key Projects

- Prime Bank Headquarters
- Royal Park, Banani
- Multiple commercial and residential access control & automatic door projects

Quality Control Engineer (Site & Documentation)

Aridod Tech Serve Ltd.

HSIA Terminal-3 Project – ADC JV (Mitsubishi, Samsung & Fujita) _____ July 2023 – June 2025

Key Responsibilities & Achievements

- Conducted **700+ QA/QC inspections** covering RCC, RMC, pavements, fire-rated doors, structural, and finishing works.
- Prepared, submitted, and maintained **1100+ QA/QC documents** (WIR, MIR, MAR, RIW, IPC), achieving a **98% consultant approval rate**
- Reviewed **method statements and ITPs** prior to execution and verified on-site compliance
- Coordinated inspections with **clients, consultants, and multinational JV partners**
- Maintained **inspection trackers, QA/QC logs, and NCR records** using MS Excel
- Prepared **as-built documentation and handover files** supporting project close-out
- Supported HSE implementation through site inspections, hazard identification, risk assessment, and corrective actions.

Quality Control Engineer / Inspector

SMCC – ITD Joint Venture

Dhaka Mass Rapid Transit (MRT) Project _____ October 2021 – June 2023

Key Responsibilities & Achievements

- Performed QA/QC inspections for RCC piles, reclamation, rigid pavement, slope protection, and associated civil works.
- Prepared and maintained **150+ QA/QC inspection records**, ensuring complete documentation for consultant review.
- Witnessed Ready-Mix Concrete (RMC) testing, including slump, compressive strength, and concrete temperature tests in accordance with **ACI** and **ASTM** standards.

- Verified construction quality, coordinated re-inspections, and closed consultant inspection comments.
- Maintained QA/QC documentation, inspection registers, progress reports, and quality records while coordinating with consultants and construction teams.

Assistant Engineer (Tender & Site Documentation)

Momotaj Engineers Ltd. _____ **November 2019 – September 2021**

- Prepared and reviewed **tender documents** including BOQ, specifications, drawings, and technical submissions
- Assisted in **tender preparation, compilation, and submission** through e-GP and manual processes.
- Coordinated preparation and submission of **Bid Guarantee (BG) and Performance Guarantee (PG)** documents.
- Prepared **cost estimates, quantity take-offs, tender documentation records and comparative statements** for tender evaluation.
- Supported site teams through **basic site supervision and documentation** for earthwork, RCC piles, seawall, slope protection, rigid pavement, fencing, and road repair works.

EDUCATION

B.Sc. in Civil Engineering

International University of Business Agriculture & Technology (IUBAT), Dhaka

2018 | GPA: 3.17

Diploma in Civil Engineering

Mymensingh Polytechnic Institute

2014 | GPA: 2.96

CERTIFICATIONS & PROFESSIONAL TRAINING

Project Management

- Construction Project Management – Columbia University
- PMP – Project Management Professional (Unit-3), Coursera

Quality, Safety & HSE

- ISO 45001:2018 – Occupational Health & Safety Management System
- ISO 14001:2015 – Environmental Management System
- OSHA Safety Standards & Compliance
- HSE Engineering – Khalifa University
- Standard First Aid, CPR & AED

PROFESSIONAL MEMBERSHIPS

- Member, **American Society of Civil Engineers (ASCE)**
- Member, **International Association of Engineers (IAENG)**

LANGUAGES

- Bengali – **Native**
- English – **Fluent**
- Hindi – **Conversational**
